This bilingual publication, *A Guide to Construction Jobsite Safety and Health/Guía de Seguridad y Salud para el Trabajo de Construcción*, is based on the North Carolina Occupational Safety and Health Standards for the Construction Industry, 29 CFR Part 1926, as adopted in 13 NCAC 07F.0201 and its following amendments. The Spanish translation has been prepared by personnel of the N.C. Department of Labor limiting the use of regionalisms in the technical field for easy comprehension. This publication was translated by Hispanic outreach consultant Alan Fortner. The information in this guide was updated in 2011.

This work also acknowledges use of some material prepared by the Oregon Occupational Safety and Health Division; Toolbase Services (at <http://www.toolbase.org>); the National Association of Home Builders; and the U.S. Department of Labor, Occupational Safety and Health Administration (at <http://www.osha.gov>).

This guide is intended to be consistent with all existing OSHA standards; therefore, if an area is considered by the reader to be inconsistent with a standard, then the OSHA standard should be followed.
